

Air Hoses

Part Number
2200

25 foot Air Blow Gun Kit.

Part Number
2205

60 inch Re-coil Air Hose.

Part Number
2207

50 foot Tire Inflator. 4 per case.

Portable Air Compressor

Part Number
5055

All in one air system. Built-in 85/105 PSI pressure switch 0-150 PSI built-in air pressure gauge. Compression fitting for 1/4" O.D. tubing. In-line fuse. 12ft 1/4" O.D. tubing. Mounting brackets and hardware.

15.75" x 5.25" x 6.75"

Capacity: 3.0 Liter Tank

Duty Rating: 15%

Amp Draw: 17

Weight: 11.2lbs

Air Hose Accessories

Part Number
2209

16 piece kit includes accessories needed for a multitude of compressed air functions. Inflating and checking tire pressure, inflating sports equipment, blowing debris, connecting hoses & quick connections of air tools. Starter kit includes 16 items 1/4" M-style.

Did You Know?

Truck tires can lose up to 2% psi each month.

Tire Inflation and Fuel Economy - A properly inflated tire can extend its life by 8% or more. For a typical long-haul combination truck, annual fuel savings should reach 100 gallons. When not properly inflated, tires flex more under load producing heat and increasing rolling resistance, which actually wastes fuel. Truck tires inflated 10 psi below recommended air pressure levels can reduce truck fuel economy from 0.5 to 1%.
