Part Number

**299-AVXL**

24" long straight SS braided valve extensions hose for the rear inner wheel

**AirMax**

# Air Valve Extensions

Valve Stem extenders take the hassle out of inflating and checking the air pressure of dual tires. Inflation kits let you easily check air pressure and inflate your vehicle's dually tires by relocating the inner tire's valve stem to the outer wheel and extends the valve stem on the outer tire. Kits are designed to be used with steel or aluminum wheels with wheel liners. All necessary hardware is included.

## Outer Dual Valve Stem System

Part Number

**290-AP3**

Air Inflation Kit Air Plus Valve Stem Extensions Outer Dual w 135 Degree Angle. Includes two extensions.

**AirPlus extensions** bring the inner valve fill into the nearest outer wheel hand hole with a spring clip stabilizer which mounts in the OE steel wheel hand hole.

## Two Hose Inner Dual Valve Stem Extension & Stabilizer Kits

- Rugged Braided Stainless Steel
- One repair of extensions with stabilizers
- Quick and easy installation
- Makes checking and filling air easier
- Ideal for any brand of wheel simulators
- Live stem hoses
