

Freightliner Cascadia Hood Mirrors

Part Number

4224FL

Driver side. Replaces A22-66565-000.

Part Number

4224FR

Passenger side. Replaces A22-66565-001.

Features:

Direct OEM Replacement

Fits: 2009 - Current

ABS Housing and Non-Heated

Auxiliary Mirror and Manual Adjustment

Complete Hood Mirror Assembly

Installation Hardware Included

1-Year Limited Warranty

Available with Black or Chrome Backing

Part Number

4225FLC

Driver side. Replaces A22-66565-002.

Part Number

4225FRC

Passenger side. Replaces A22-66565-003.

Did You Know?

Freightliner Cascadia Hood Mirrors Are Exceptional and Safer!

Pedestal - Mounted lightweight aero mirrors, are exceptionally stable for minimum vibration. Hood mounted mirrors were included in the factory design to maximize the viewable blind spot area. These mirrors rest on a secure built-in hood support placed forward to reduce splash from road spray. In designing the mirror mounting, over 100 different positions were tested to the Cascadia's large but lightweight cab features to define the optimum viewing of the rear, and minimization of blind spot.
