## Light Bar Mounting Bracket

Hardware included. 1 Pair.

Part Number

**495**

Mounting brackets for one piece light bars.

### Did You Know?

These brackets are designed to securely hug the light bars from four points to distribute the weight of the light bar and make them withstand the constant vibration. These brackets come with the necessary hardware so you can mount them yourself.

No need to weld or take a trip to the hardware store to get nuts and bolts – hardware is included.
