Part Number 8050-1

Flanges Kit Includes (1) threaded stem with nut and nylon tube

#### Part Number 8075

Our wheel rakes make cleaning your buffing wheels easy - just move the heavy gauge steel rake across the wheel face while it's running. This action, done periodically and before a different compound is applied, will removed entrapped metal particles which could scratch a more delicate part.

#### Part Number

and 3" taper buff.

8080

8" extender polishing kit. Includes 8" extension, 3" polishing buff

Part Number 8070 8" extension x 1/4". Use with 2" and 3" polishing buffs.

# Polishing/Cutting Compounds

#### **Black/Grey Cutting Compound**

Part Number 8000-BLA

Medium wet. Sharp cut for excellent finish on stainless steel, aluminum, cast iron and all ferrous metals. For best results, apply with a sisal buff or treated airway buff.

### **Blue Rouge**

Part Number 8000-BLU

Medium dry. Primary cutting of aluminum, brass, copper, nickel, silver, zinc, and non-ferrous metals. For best results, apply with an untreated white/UBM airway buff.

#### Green Rouge

Part Number 8000-GRE

Medium dry. Works well on chrome, aluminum and stainless steel. Popular as coloring compound where minimum cut is required. For best results, apply with an untreated white/UBM airway buff.

#### **Red/Brown Tripoli**

Part Number 8000-RED

Medium dry. Excellent cut, high color, easily cleaned. Superb use on aluminum, brass, copper and die cast. For best results, apply with a treated airway buff.

#### White Rouge

Part Number 8000-WHI White Rouge

Medium wet. Mild cut, clean high color. Finishing compound for restoration of mirror finish shine. Excellent for use on chrome and brass as well as plastic. For best results, apply with an un-treated white/UBM airway buff.
